Wages & Benefits

The total year-to-year change for personnel wages and benefits is an increase of 6.15 percent which includes a 5.2 percent cost-of-living adjustment (COLA), 2.0 percent merit, 2.1 percent annual career ladder increase (28 possible staff). The COLA is based on the Bureau of Labor Statistics, West Region Consumer Price Index (CPI). The function of the COLA adjustment is to ensure employee wages remain in line with energy, food, and housing cost escalation measured by the Bureau of Labor Statistics. The Board policy has been to use the July West Region CPI to adjust COLA to help employees maintain wage purchasing ability in the event of inflationary pressures. The July West Region consumer price index information is on the following page:

Consumer Price Index, West Region — July 2021

Area prices were up 0.6 percent over the past month, up 5.2 percent from a year ago

Prices in the West Region, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), advanced 0.6 percent in July, the U.S. Bureau of Labor Statistics reported today. (See table A.) The July increase was influenced by higher prices for shelter, food, and gasoline. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect seasonal influences.)

Over the last 12 months, the CPI-U rose 5.2 percent. (See chart 1 and table A.) Food prices increased 4.6 percent. Energy prices jumped 24.9 percent, largely the result of an increase in the price of gasoline. The index for all items less food and energy increased 3.9 percent over the year. (See table 1.)

Staffing

There are no additional positions in the budget. One position was moved from the Electrical Department to the Operations Department. This change was made help prepare for the upcoming operational needs of the new Biological Nutrient Removal (BNR) process. One additional operational position will need to be added in the future prior to going live with the BNR system.

It is anticipated that two employees will be retiring in 2022. These payouts have been budgeted and are part of the increase in Wages & Benefits.

Health insurance is budgeted to increase by 2 percent. In 2021, health insurance decreased by 3.77 percent and in 2020 increased 4.41 percent. The projected national average increase for 2022 is 7 percent*. CVWRF management is pleased that our increase is well below the national average.

Operating Budget Changes

Operations

The Operations category contains Travel & Training, Uniforms, Subscriptions, Janitorial, Tipping Fees, and Supplies. This category is essentially flat, with an increase of only \$5,800 over the prior year.

In the past, the Tools & Small Equipment budget accounts were aggregated under the Operations budget category for reporting purposes. However, we believe it makes more sense to include the Tools & Small Equipment budget accounts under the Maintenance budget category. Therefore, this change has been made in the 2022 budget document.

Contract Services

The Contract Services category line decreased by \$31,000. This is mainly from decreases in IT and Engineering professional fees budget account.

Utilities

The \$73,000 decrease in the Utility category is due to the Cogen project nearing completion. With this system functioning, there is less need for a large budget contingency for natural gas and electrical power in the event of system down time. Also, the new engines are more efficient than the old engines and provide more electrical power for the natural gas and biogas fuel consumed.

Chemicals

Chemicals (polymer, hypochlorite, ferric sulfate, magnesium chloride) went up by \$104,000. This increase was primarily due to an increase in market rates for these products and a small increase in usage due to increasing solids loading and hydrogen sulfide levels in the influent.

Maintenance

The Maintenance category increased by \$214,000. There were some budget accounts that decreased, but most of the increase was from the following projects.

- Belt filter press rebuild - \$150,000
- Interceptor cleaning - \$75,000

Insurance

The insurance category increased by \$46,000. Approximately 70 percent of this increase was from the increase in asset value from construction of the new facilities and the remaining 30 percent was from insurance rate increases.

Contingency

This category increased \$100,000 to account for the potential need to purchase chemicals to perform chemically enhanced primary treatment (CEPT) when the next trickling filter is removed to make way for the BNR construction. CEPT may be needed on a temporary basis during construction to remove additional BOD in the primary clarifiers to offload the remaining trickling filters and help ensure compliance with the effluent ammonia limit. If contingency budget is required to be used, management will come to the Board for approval.

Debt Service

CVWRF has issued multiple bonds since 2017 to help pay for the plant upgrades.

In 2021, CVWRF issued three additional bonds to fund most of the remaining plant improvements required for regulatory compliance starting in 2025. The 2021 bonds were issued as 2021A, 2021B, and 2021C, with the 2021C bond being the largest of the three. The debt service budget has increased this year because of these changes and will increase again in the following year as the first year for the 2021C bond is interest only. The following tables show the different bonds and how the bond payments are allocated among the participating member entities for billing purposes.

The 2017A & B bond payment budgets are below:

Bond Payments	Amount
2017A Bond Principal	1,060,000

CVWRF issued a loan from the Division of Water Quality (DWQ) in June of 2020. The loan amount was \$65.1 million dollars and is funding part of the BNR construction project. This loan is interest only until July 2023 and requires CVWRF to build a debt service reserve equal to one annual payment as well as a repair and replacement fund. The repair and replacement fund will be funded in a future budget.

Capital

DWQ Loan Projects

For the DWQ loan, the total project capital costs are estimated to be \$30.4 million in 2021. The project funded by the loan is the Biological Nutrient Removal (BNR) Basins Project. These expenditures will fully draw down the remaining DWQ loan.

Project ID		2022

The pay-as-you-go capital

The new annual budget amount for pay-as-you-go capital is \$6.4 million; this was adjusted up by 2 percent for inflation over the prior year. CVWRF will not be carrying forward budget from the pay-as-you-go capital budget as the plan is to utilize any unspent budget at the end of each year to help pay for the BNR project. Paying for the BNR project with unused pay-go capital will free up bond proceeds to pay the extra cost for projects in which the construction bids have come in over their budget estimate.

The pay-as-you-go capital budget is as follows:

Pay-as-you-go CIP	Description	Budget
LTP12	New RAS Pumps 1-8	\$ 760,000
